

## Web based Business Management & Portal Solution

[CRM | SALES | PURCHASE | PROPOSAL | ORDER | WAREHOUSE | PRODUCTION | PLANNING  
IMPORT / EXPORT | LOGISTICS | TRANSPORTATION | DOCUMENT MANAGEMENT ]

BMBASE is designed and developed for fulfilling all needs to automate the processes from order to sales and from production to transportation. Therefore BMBASE has all needed modules like Sales Automation, CRM, Warehouse Management, Logistics etc...

BMBASE is very flexible and modular solution. This means, that BMBASE can be easily customized for special needs in a very short time and all modules of other BilPark xBASE solutions can be easily inserted into the BMBASE Solution.

BMBASE has been designed and customized for several sectors like textile, education, maritime container transport, maritime shipping, shipyard, export / import.

### **BMBASE | Executive**

---

BMBASE is compatible with all web browser and accessible from anywhere anytime via its web based infrastructure.

BMBASE Licensing is based on CPU / Server and there is no client access licensing. This means low total cost of ownership and short term return of investment.

### **BMBASE | Seamless Integration to xBASE Solutions**

---

**BMBASE** is running on the xBASE platform like the other BilPark Solutions. Therefore BMBASE can easily communicate to the other BilPark Solutions like Service & Maintenance Solution - **SeMaBASE** or Project Management Solution – **ProBASE** or Document and Content Management Solution – **DoXBASE**.
